Family Tree Wizard

Create an embroidery chart automatically from your family information with this wizard.

- Show up to three generations of ancestors or descendants
- Enter the names and relationships of other family members
- Enjoy a choice of fonts and frames

	<i>The most recently created family tree is stored by the wizard. It is reopened the next time the wizard is used.</i>	
2.	Select the Family Tree Wizard in the Create tab to create a family tree for an individual. The Family page of the Family Tree Wizard will appear.	 <p>Family Tree</p>
3.	<p>In the Family page, choose whether to start a Descendants Chart, or an Ancestors Chart.</p> <p>A Descendants Chart shows the partner, children, grandchildren and great-grandchildren of the selected individual.</p> <p>An Ancestors Chart shows the father and mother, grandparents, and great-grandparents of the selected individual.</p>	

In the First Individual dialog box, enter the Given Name and Family Name of the person the tree is for, and indicate if they are Male or Female.

Click Next to enter further individuals in the family tree.

i Leave the name for any individual blank to not include them in the tree. You may return to add data later.

< Back Next > Close Help

	<p>Click Next to add grandchildren (the children of the oldest child).</p> <p>Click Next again to add grandchildren for each of the other children, and then to add great-grandchildren for each of the grandchildren.</p>	
	<p>When you have finished entering information for the family tree, click Close to view the tree in the Family page of the wizard.</p>	
	<p>If you want to go back and alter the information you can click on Edit Individuals</p>	
	<p>You can also change the layout with the names.</p> <p>Click Next to change the lettering used in the family tree.</p>	

<p>4.</p>	<p>In the Lettering page select the style for the text in the family tree. Choose the font, size, color, spacing and stitch type options for the names.</p>	
	<p>Click Next to change the frames used in the family tree.</p> <p>In the Frame page choose whether to use frames, and select a frame, corners, side pieces or a flourish for each individual. Change the color and stitch options for the frame.</p>	
	<p>You can also choose if you want to frame individual names</p>	
	<p>Change thread colors</p>	
	<p>Click Next to change the connectors used between partners in the family tree.</p> <p>In the Connectors page select satin line or a running stitch line for connectors, or use no connectors.</p>	
	<p>Choose a single or double line connector for partners. Change the thread color used for connectors.</p>	

	<p>Check your work by clicking the wizard tabs or by using Next and Back to view the Family Tree Wizard pages. Adjust your settings as desired.</p> <p>Click Finish to place the family tree chart in the work area as a grouped .vp4 file with fixed lettering and frames.</p>	
	<p>Now it appears in a hoop area big enough for the Family tree. If it is too big for your hoop, Use Split Design Wizard or the Split Design In Stitch Editor.</p>	
	<p>To save the design click on File and Save As. This will save a .vp4 file that is fully editable again if you want to continue working with it.</p>	
	<p>If you want a different format you use the Export instead.</p>	
	<p>Here you will get a list of all available formats and you can choose the format you need for your embroidery machine.</p>
